Applicant: Akihisa NAKAMURA
Title: PROCESSOR SYSTEM AND DATA PROCESSING METHOD
Appl. No.: Unassigned
Filing Date: 03/16/2004
Examiner: Unassigned
Art Unit: Unassigned

INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Mail Stop PATENT APPLICATION
Commissioner for Patents
PO Box 1450
Alexandria, Virginia 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicant in order to comply with Applicant's duty of disclosure pursuant to 37 CFR §1.56. A copy of each listed document, except as noted below, is being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The USPTO has waived the requirement under 37 CFR 1.98(a)(2)(i) to submit copies of U.S. patents and U.S. patent application publications when citing and submitting an Information Disclosure Statements in a patent application filed after June 30, 2003 and in an international application that has entered the national stage under 37 USC §371 after June 30, 2003. Accordingly, copies of these types of documents are not being supplied in connection with this application. Reference is being made to Pre-OG Notice from Office of Patent Legal Administration dated July 25, 2003, *Information Disclosure Statements May Be Filed Without Copies of U.S. Patents and Published Applications in Patent Applications filed after June 30, 2003.*

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicant does not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The listed documents are being submitted in compliance with 37 CFR §1.97(b), within three (3) months of the filing date of the application.

RELEVANCE OF EACH DOCUMENT

Document A2 discloses technology which can distribute a process to the processor for serial processing and the processor for parallel processing. (Fig. 1 and lines 33-43 of right portion of page 3.)

Document A3 discloses the technology of distributing interruption processing by arbitrating the competition of access to the bus in a multiprocessor system. (Fig. 1 and lines 12-30 of right portion of page 3.)

Document A4 discloses the technology of distributing interruption processing by forming a cue counter in interruption processing of a CPU board. (Fig. 1 and lines 42-48 of right portion of page 3.)

Document A5 discloses an image processor comprising a plurality of processor elements each having a product sum calculating function. Input switching means are incorporated for selection of image data so that the desired data in an arbitrary processing step of any one processor element can be transferred to an arbitrary processing step of the other processor element. Each processor element includes a data writing line memory, a multiplier

for multiplying the output data of the line memory, a register file for storing the multiplied output therein, and an accumulator for calculating the output of the register file. Pipeline processing of the data can be executed in such constitution, and due to the provision of the input switching means in the preceding stage of each processing circuit, the image data can be transferred between the processor elements to consequently realize enhanced general ability for the image processing. Documents A1 and A5 claim priority based on the same first-filed application.

English translations of the foreign-language documents are not readily available. However, the absence of such translations does not relieve the PTO from its duty to consider the submitted foreign language documents (37 CFR §1.98 and MPEP §609). English language abstracts are provided herewith.

Applicant respectfully requests that any listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 CFR §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.

Respectfully submitted,

Date March 16, 2004
